Career Objective

Entry-level Java Full Stack Developer with strong proficiency in Java, SQL, HTML, CSS, JavaScript, and React. Experienced in building responsive web applications, RESTful APIs, and database-driven systems while adhering SDLC principles, clean coding practices, and industry standards best practices. Seeking an opportunity to contribute to scalable software solutions and grow as a full-stack developer.

Technical Skills

Programming Languages: Java, SQL
Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js
Backend Technologies: Spring Boot, Hibernate (JPA), RESTful APIs, WebSocket
Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA, MySQL, Eclipse
Core Concepts: Object-Oriented Programming (OOP), Data Structures, SDLC, STLC, MVC Architecture
Soft Skills: Analytical and Problem-Solving Skills, Self-Motivation, Decision-Making Skills

Experience

Web Developer Intern
Unified Mentor *October 2024 – November 2024*

- Designed responsive React.js components using HTML, CSS, and JavaScript to ensure consistent UI, cross-device compatibility, responsiveness, and improved user experience.
- Created reusable and modular components following clean code principles, enhancing application scalability, maintainability, and performance.
- Collaborated with cross-functional agile teams utilized Git and GitHub, and deployed production-ready features with optimized and bug-free releases.

Projects

Gym-Management System **October 2024**

- Developed a full-stack web-based Gym Management System to digitize and streamline gym operations.
- Built backend services using **Java and Spring Boot** with **MySQL** for secure data storage and management.
- Implemented **role-based access**, allowing admins to manage members, generate bills, and send details via email.
- Enabled members to securely view personal profiles, billing history, and payment details.
- Used **Thymeleaf, HTML, and CSS** to create a clean, user-friendly interface.
- Reduced manual paperwork and improved operational efficiency through automation.

Real-Time Chat Application **November 2024**

- Developed a real-time chat application enabling users to join chat rooms and exchange messages instantly.
- Integrated **WebSocket-based communication** using **Spring Boot** for low-latency, real-time messaging.
- Designed an interactive and responsive UI with **HTML and CSS** for smooth user experience.
- Created a robust backend in **Java** to handle message broadcasting, room management, and user sessions.
- Ensured reliable real-time data flow and connection handling for multiple concurrent users.

Education

Master of Computer Application May 2026 – May 2028
Chandigarh University , Unnao, Uttar Pradesh
Bachelor of Computer Application (Data Science & Artificial Intelligence) May2022 – May 2025
Babu Banarasi Das University , Lucknow, Uttar Pradesh *CGPA: 8.12*
